Global Dialogue Series

Pathways for transformative change in telecoupled agro-food systems

PROJECT RESOURCES

Project resources

If you would like to explore the TCforBE project in more depth, the website brings together a range of resources developed throughout the research. These include project updates, news and events, policy briefs, scientific publications, presentations, leaflets and other materials related to biodiversity, equity and transformative change in telecoupled agro-food systems.

The table below highlights a selection of resources that may be particularly relevant to the themes explored across the dialogue series. You can use the categories to browse by type of resource, scale and topic, depending on your interests.
